

## **Protocol for Medication whilst attending a trip, sports fixture or after school club**

Please be aware that if your child requires any medication during this trip the consent form must be completed and returned to the first aider on the day of the trip together with their medication (please ensure that you read the top of the medication form with regards to school acceptance of medication/packaging, etc.). Please note this includes, but is not exhaustive to, travel sickness medication, antibiotics and over the counter medication. It is vital you complete the consent form in full (if needed) otherwise it may result in your child not receiving their medication whilst on the trip. It is your son/daughter's responsibility to liaise with the first aider to ensure their medication is administered/taken at the correct time. If you wish to discuss any medical needs for your child whilst on this trip please do not hesitate to contact us. Please note: It is the parent's responsibility to ensure that the school is notified in writing if any medical information relating to their child changes.
